16 March 2010

Dear Nick

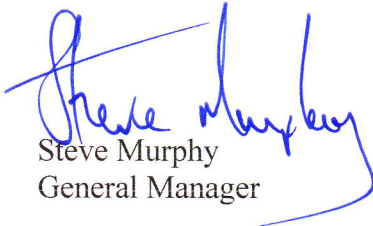

I would like to thank you and your team for the advice and support you have given us since we decided to change our telephone system.

We are delighted with the new Siemens system and it provides us with so much more flexibility than the BT Versatility that we had for many years. The new technology provides a great solution to our business and the cordless additions to the base units are very useful to have access all through the clubhouse and pro shop.

I would be delighted to provide any reference to prospective clients.

Kind regards

Yours sincerely

Steve Murphy
General Manager
